Designed for the college graduate who wants to become a registered nurse, the Master's Entry to Nursing Practice (MENP) program provides the advanced education for general professional nursing practice and eligibility for the RN licensure examination (NCLEX-RN).

The program encourages students to analyze nursing concepts, theories and research to design, implement, and evaluate family-centered and community-based models of professional nursing. Students learn to assume a leadership role within the health team and the profession for safe, effective and affordable health care. Graduates will be able to analyze professional codes and standards as a basis for professional nursing practice and service to a multicultural society.

TARGET AUDIENCE:

College graduates seeking a career change to nursing.

ADMISSION REQUIREMENTS:

- Bachelor's degree from a regionally accredited college or university and previous grade point average of 3.0 or higher (on a 4.0 scale)
- Prerequisite courses with labs: two human anatomy/physiology courses plus one in inorganic chemistry, plus one in either organic chemistry, biochemistry, or microbiology.
- Pre-reqs must be completed within 7 years with a grade of "C" or better. Preference given to students with grades of "A" or "B". Online courses with labs accepted.
- GRE is not required but may be submitted to strengthen application

COST:

\$765 per credit hour
